

AirClic, Inc.

CORPORATE OVERVIEW

AirClic provides an on-demand mobile process platform offering a cost-effective, end-to-end solution for capturing and exchanging information with workers, including third-party contractors. Using AirClic-enabled wireless devices, companies gain visibility to processes like proof-of-service, logistics, asset management, inventory, time/activity tracking and security. AirClic is the most elegant, streamlined mobile process solution available and each customer-defined application can be deployed in as little as two weeks while integrating seamlessly into back-end systems.
